

Amendments to the Specification

Please replace the paragraph starting on page 5, line 11 and ending on page 5, line 12, with the following paragraph.

The St. John's Wort may be used as the whole plant, its water extract, alcohol, ethanol, or any other extract. It is also possible to use just one or more of the plants ingredients. Especially preferred is the hypericin which is commercially available in different concentrations (e.g. 0.3% Hypericin St. John's Wort, Fa. Lichtwer, Berlin).
